

# INDEPENDENT REVIEW OF MATERNITY SERVICES

## IMPORTANT MESSAGE FROM THE REVIEW CHAIR

The Independent Review team is looking at all aspects of maternity care provided by Nottingham University Hospitals NHS Trust (NUH).

We are now starting to focus on antenatal care. By antenatal care, we mean the care that women receive at various stages during their pregnancy to check that both they and their baby (or babies) are as well as possible. This can include ultrasound scanning; antenatal screening for certain conditions; and antenatal diagnosis.

We are keen to hear from women and families who would like to tell us about the antenatal care they have received at either Nottingham City Hospital or Queen's Medical Centre. If this includes you, or a member of your family, I would urge you to contact the Review team, either by phone or email, or by scanning the QR code above.

Thank you

Donna Ockenden
